

### Vakkombinasie in die VOO fase:

Wiskunde is slegs in kombinasie met Fisiese Wetenskap en/of Rekeningkunde verpligtend. Hierdie vakkombinasie word vanaf 2017 vir Graad 10 infaseer. Skole wat die verandering reeds toegepas het, moet hulle vakkombinasies so behou.

### Verandering van vakke in Graad 10 en 11:

- Die verandering van 'n maksimum van 2 vakke in Graad 10, voor 30 Junie, word toegelaat.
- Die verandering van 'n maksimum van 2 vakke in Graad 11, voor 31 Maart, word toegelaat. In beide gevalle is verandering afhanklik van die goedkeuring van die hoof.
- In uitsonderlike gevalle kan 1 vak in Graad 11 nog verander word, met die voorwaarde dat dit voor 15 Desember van die Graad 11 jaar moet gebeur.

Bogenoemde verandering word uiteengesit in Om-sensdskrywe S1 van 2016. [Kliek hier](#) om na die dokument te kyk.

Die beleid word ook volledig in die Nasionale beleid met betrekking tot die Program en Bevorderingsvereistes van die Nasionale Kurrikulumverklaring Grade R – 12 (Hersien in November 2015) uiteengesit. Om na die dokument te kyk of af te laai [kliek hier](#).

### Konsepriglyn – Skole met tegniese studierigting

Laasgenoemde dokument bevat ook inligting ra-kende die vakkeuse vir die tegniese studierigting wat vanaf 2016 vir Graad 10 infaseer word. Verder het daar ook 'n konsepriglyn dokument "Draft Guidelines for the Implementation of Technology subjects and Technical Mathematics and Sciences" verskyn. Hierdie dokument gee onder andere erkenning aan die verskillende tipe skole wat die tegniese studierigting kan/mag aanbied. Om na hierdie dokument te kyk kan u die Facebook bladsy - *Skole van Tegnologie* besoek (<https://www.facebook.com/groups/492571437579662/>); alternatiewelik [kliek hier](#).

### Subject combination in the FET phase:

Mathematics is only compulsory in combination with either Physical Science and / or Accounting. This subject combination policy is to be implemented for Grade 10 as from 2017. Schools that have already implemented this change should continue to do so.

### Changing subjects in Grades 10 and 11:

- Changing a maximum of two subjects in Grade 10, before 30 June, will be allowed.
- Changing two subjects in Grade 11, before 31 March, will be allowed. In both cases, changing subjects is dependent on the approval of the Principal of the school.
- In exceptional cases, one additional subject can be changed in Grade 11, provided this is done before 15 December of the Grade 11 year.

The above changes are set out in Circular S1 of 2016. [Click here](#) to view the document.

The policy is also set out in the National Policy Pertaining to the Programme and Promotion Requirements of the National Curriculum Statement Grades R - 12 (Revised November 2015). To view the document or download [click here](#).

### Draft guideline – Schools with technical pathway

The latter policy document also contains information about the subjects for the technical pathway that was phased in for Grade 10, as from 2016. In addition, a draft guideline document "Draft Guidelines for the Implementation of Technology subjects and Technical Mathematics and Sciences" was released. This document recognised the different types of schools that may offer the technical field of study. To view this document, visit the Facebook page - *Schools of Technology* (<https://www.facebook.com/groups/492571437579662/>) or [click here](#).
