**Karen Tocknell (nee Hagemann)**

In September 2005, the yacht *Moquini* went missing off the Southern tip of Madagascar during the Mauritius to Durban Ocean Yacht Race. Months of extensive searching proved futile and gradually the families of the six missing crewmen accepted that their loved ones would not be returning. Karen Tocknell, wife of well-known yachtsman, Neil

Tocknell, was left with three young children and a future that looked bleak and overwhelming. Yet as the waves of sorrow crashed over them and the tides of change ripped apart their previously content and ordered lives, Karen and her children found eternal treasures in the depths of their despair and anguish. Captured by the media across the world, the story of the *Moquini* was depicted as a tragedy with a hopeless end. Yet for Karen and her young family, it has become a story of endless hope.

Philile Dlalisa from the KZN Department of Education. Philile will be discussing **SA-SAMS** with much emphasis on **Curriculum Related Data (Module 12)**. This Module include:

1. How to capture marks straight on SA-SAMS
2. Export and import from SA-SAMS
3. To get your reports out of SA-SAMS
4. To get your Schedule and Analysis of SA-SAMS, etc.
5. And to set up SA-SAMS for 2019 and generating Quarterly Schedules.

This promises to be a very entertaining day with many more gifts and prizes to be won.
