Inklusiewe Onderwys / Inclusive Education

Working with the Policy on Screening, Identification, Assessment and Support (SIAS) for Educators

The main focus of the SIAS policy is to manage and support teaching and learning processes for all learners who experience barriers to learning. A policy which you may have heard about but haven't explored or still have questions about.

Differentiation

Just as everyone has a unique fingerprint, every student has an individual learning style. Chances are, not all of your learners grasp a subject in the same way or share the same level of ability. So how can you better deliver your lessons to reach everyone in class? Come and learn about differentiated instruction in the classroom with these practical tips and guidelines.

Die Beleid op Screening, Identification, Assessment and Support (SIAS) vir Opvoeders

Die hoofokus van die SIAS-beleid is om onderrig en leerprosesse vir leerders wat leerhindernisse ervaar, te bestuur en te ondersteun. Jy het heel moontlik al van hierdie beleid gehoor, maar dit nog nie ten volle geïmplimenteer nie of wonder steeds oor baie aspekte.

Differensiasie

Net soos wat elkeen 'n unieke vingerafdruk het, het elke leerder 'n individuele leerstyl. Daar is 'n groot kans dat nie al jou leerders 'n konsep op dieselfde manier snap of op dieselfde vlak van vaardigheid is nie. Hoe kan jy jou lesse aanbied om elkeen in die klas te bereik? Kom leer oor differensiasie in die klaskamer met hierdie praktiese raad en riglyne.
