OPNAME: DISSIPLINE IN SKOLE

Dit is 'n erkende feit dat 'n gebrek aan dissipline in feitlik alle skole 'n groter wordende probleem is. Ons is van mening dat dit waarskynlik een van die hoofredes is waarom onderwysers die professie in groot getalle verlaat.

In die lig van talle gerapporteerde insidente van uitdagende leerdergedrag, boeliery en teistering die afgelope jaar in skole, asook die mediaberigte wat daarop gevolg het, het die Nasionale Kantoor van die SAOU besluit om in 2018 lede te bemagtig met betrekking tot die hantering van dissipline binne die werkplek.

Ten einde vir hierdie bemagtigingsgeleentheid voor te berei, is besluit om 'n opname te maak van wat die situasie op grondvlak is en hoe ons lede dit ervaar. Die SAOU versoek dus lede vriendelik om ons te help met die identifisering van kritiese areas, deur op die volgende skakel te kliek en een of beide vraelyste in die verband te voltooi:

1. Dissipline en uitdagende leerdergedrag in skole
   https://goo.gl/forms/ZcPgl3US7JZygfxX2

2. Boeliery en teistering van opvoeders deur kollegas in die werkplek
   https://goo.gl/forms/psDluRlFD9dTUcGJ2

Selfs lede wat nie ernstige probleme met dissipline of boeliery ervaar nie, moet asseblief ook reageer.

Die vraelyste word anoniem voltooi en die uitslae sal konfidensieel hanteer word. U deelname aan hierdie opname is vrywillig en u kan enige vraag waarmee u ongemaklik is, bloot uitlaat.

Ons maak staat op inligting vanaf ons lede om hierdie probleme aan te spreek en lede te bemagtig

SURVEY: DISCIPLINE IN SCHOOLS

It is a known fact that a lack of discipline in all schools has become an ever increasing problem. We are of the opinion that this is one of the main reasons why so many educators are exiting the teaching profession.

In the light of the numerous reported incidents of challenging learner behaviour, bullying and harassment in schools over the past year, as well as the media reports that followed, the SAOU National Office has decided to empower members in 2018 on how to deal with discipline within the workplace.

In order to prepare for these workshops a survey needs to be conducted to get information on what educators are experiencing on ground level and to determine what the real issues are. The SAOU therefore requests members to assist us in identifying critical areas by clicking on the following link and completing one or both questionnaires in this regard:

1. Discipline and challenging learner behaviour in schools
   https://goo.gl/forms/ZcPgl3US7JZygfxX2

2. Bullying and harassment of teachers by colleagues in the workplace
   https://goo.gl/forms/psDluRlFD9dTUcGJ2

Members who do not experience serious disciplinary problems or bullying must also please respond.

The questionnaires will be completed anonymously and the results will be treated confidentially. Your participation in this survey is voluntary and you can simply omit any question that you are uncomfortable with.

in die verband. Die opname sluit op 15 November 2017 om 12:00. Indien u enige navrae het, kontak Marietjie le Roux by mleroux@saou.co.za of 012-4360900.	We rely on information from our members to address these issues and empower them in this regard. The survey closes on 15 November 2017 at 12:00. If you have any queries, contact Marietjie le Roux at mleroux@saou.co.za of 012-4360900.
