KNOWLEDGE BUILDER 2017: BECOME AN EXPERT IN YOUR SUBJECT AREA!

**THE SAOU REMAINS YOUR NUMBER ONE PARTNER IN TRAINING AND EMPOWERMENT.
KNOWLEDGE BUILDER 2017 IS TAILORED TO ADDRESS THESE NEEDS:**

Mathematics Grades 1-3

This training focuses on the building blocks and capturing of Maths principles, HOW we teach Maths in Grades 1-3. Innovative, practical tips and guidance will be given to the Foundation Phase teachers. Themes to be addressed: Money, Counting activities (Number concept), Problem solving, Mental Maths and Multiplication & Division.

Mathematics Grades 7-9

The focus is on the CONTENT of Mathematics across the Senior Phase. Within the existing themes of Number Operations, Patterns and Functions, Data Handling, Space and Shapes and Measurement the core issues are addressed. A MUST for educators who are serious about teaching Maths.

Reading Methodology English Home Language Grade 1-3

How should introductory reading be initiated and taught? How are reading skills assessed and which successful remedial strategies apply? This reading workshop will focus on the methodology of reading, integration of reading as a skill and facilitating the transition of reading activities from Grade 3 to 4.

Accounting Grades 7-9

The aim is to strengthen and expand knowledge and methodology of Accounting as part of Economic and Management Sciences. The following topics will be addressed: Accounting terms and concepts, Cash transactions, Credit transactions, Credit sales, Returns and receipts from debtors, Credit purchases and returns.

Physical Sciences Grades 10-12

This focus is on the development and strengthening of subject content of Physical Sciences in the FET phase. The following topics will be covered: Mechanics, Electricity & Magnetism and Chemical change.
