MOET SELFONE IN SKOLE TOEGELAAT WORD?

Nuwe wetgewing in Frankryk vereis dat leerders onder die ouderdom van 15 hul selfone tuis moet los, of ten minste afskakel gedurende die skooldag. Hoërskole sal die keuse kan uitoefen om self te besluit of hulle die verbod wil implementeer.

Daar was die afgelope week talle debatte in die media met sterk argumente vir en téén die beleid. Die SAOU stel belang in hoe ons lede daarvoor voel – dit help ons om beter en meer gerigte ondersteuning te bied.

SHOULD CELL PHONES BE ALLOWED IN SCHOOLS?

New legislation in France stated that learners under the age of 15 must leave their cell phones at home, or at least have them turned off during the school day. High schools will be allowed to decide whether or not they want to implement the ban in their classrooms.

During the past week the media carried a few arguments for or against such a policy. The SAOU is interested in what our members' opinion about such a policy is – and therefore be able to lend more targeted member support.
