Ons salueer vroue in die Onderwys

Vrouedag word gevier op 9 Augustus, soos elke ander jaar. Ons moet egter waak teen die gewoonte om dit net te sien as nog 'n skoolvakansiedag.

Dit is baie belangrik om vroue in die Onderwys regtig na waarde te skat op Vrouedag.

Vroue het veel te bied op alle vlakke van opvoeding – by die huis, in skole, binne gemeenskappe; hulle lewer 'n groot bydrae tot die ontwikkeling van die gemeenskap.

'n Wyse vrou kan haar invloed gebruik om kinders en gemeenskappe op te voed ten opsigte van vele kritiese aspekte in die lewe.

Ons hoop dat elke vrou 'n spesiale bederf sal ontvang op Vrouedag!

We salute women in Education

Womens' Day will be celebrated on 9 August, like every other year. We should be cautious not to fall into the habit of seeing this as another school holiday.

It is very important to really value women in Education on Womens' day.

Women have a great deal to offer on all levels of education – at home, in schools, in society; they really contribute to the development of society.

A wise woman can use her influence to educate children and communities on critical issues in life.

We hope that every woman will be treated in a special way on Womens's Day!
